

Hidden in Plain Sight

Human Trafficking in our Community

Sorooptimistloomis.com/trafficking

Human traffickers often hide behind screens and may disguise themselves as authority figures or romantic partners. Their manipulation quietly undermines confidence and threatens safety and future goals, especially for young people. Learn to recognize the signs so we can work together to better protect our families, friends and community.

Sorooptimist Vision: Women and girls have the resources and opportunities to reach their full potential and live their dreams.

Join us for an Eye-Opening Program and Resource Fair
